

# How to Love

## Luh Kel

I don't know how to love  
All my feelings, emotions are bottled up  
Put my foot in the mud  
Now i'm feeling stuck  
You weren't there for me  
When all my times was rough  
Just hold me close and  
Touch me in slow motion  
Tell me that you love me  
Cause I ain't hear that often  
And promise you won't ever leave  
Cause I love when you next to me  
You struck my heart, i'm feeling weak  
Girl I love your ecstasy  
You know that I hate every time we apart  
Give me a love, we can love to the stars  
Knew I messed up when I gave you my heart  
You left me out there just to bleed  
I've been scarred I don't understand  
You left me and pushed me  
You took it too far I don't know how to love  
How to trust  
I want your love  
I need your lust  
I miss your touch  
Just tell me you love me  
And need me  
Cause I need us I don't know how to love  
All my feelings, emotions are bottled up  
Put my foot in the mud  
Now i'm feeling stuck  
You weren't there for me  
When all my times was rough  
Just hold me close and  
Touch me in slow motion  
Tell me that you love me  
Cause I ain't hear that often She said she don't feel it no more  
She telling me all of her feelings is gone  
How your eyes rain and it pours  
I cannot take it no more Just hold me close and  
Touch me in slow motion  
Tell me that you love me

Cause I ain't hear that often
