Sweet Little Thing

Lucero

Sweet little thing A constant in my thoughts Sweet little thing

Somehow we both got lost

And you tell me that I can't change

And you say I'm such a boy

Sweet Lil thing Your friends say I'm no good Sweet little thing They never understood

The way I'd stay up all night

The way I'd tremble in your arms A kiss'll make you close your eyes

A kiss won't make you stay

Please don't walk away

Please dont walk away

I like to know you're there

Though there's nothing left to say

Please don't walk away

Please don't walk away Sweet little thing Maybe I ain't no good

Sweet little thing

I ain't done what I should

I let'em think what they want

But all I want is youA kiss'll make you close your eyes

A kiss won't make you stay

Please dont walk away

Please dont walk awayI like to know you're there

Though there's nothing left to say

Please don't walk away

Please don't walk away

A kiss'll make you close your eyes

A kiss won't make you stay

A kiss'll make you close your eyes

A kiss won't make you stay

A kiss'll make you close your eyes

A kiss won't make you stay

A kiss'll make you close your eyes

A kiss won't make you stay

Sweet Lil thing
