

# Showdown at Big Sky

Robbie Robertson

Soldier of fortune  
He's a man of war  
Just can't remember  
What he's fighting for  
Start a revolution  
Right before your eyes  
When you hear the big bang  
Don't you be surprised Showdown at big sky  
Darkness at high noon  
Showdown at big sky  
That day may be soon  
And people, people  
Can you hear the sound  
From every village and every town  
Let the bells ring out (ring those bells)  
Hear the bells ring in  
Let the bells ring out (everybody)  
Keep them ringing, ringing Can't predict the future  
Can't forget the past  
Feels like any moment  
Could be the last  
All you believers  
Standing inside this room  
Can't you see it coming  
Shooting out across the moon  
Save this place  
- In the valley of tears  
- By the river of time  
From weapons race  
- In the Book of David  
- In the holy night  
When it's laid to waste  
- It will be written  
- By the children of Eden  
I said save this place  
- And the Holy Ghost Showdown at big sky  
Darkness at high noon  
Showdown at big sky  
That day may be soon And people, people  
Can you hear the sound  
From every village and every town  
Let the bells ring out (ring those bells)

Hear the bells ring in (ring those bells)  
Let the bells ring out (everybody)  
Keep them ringing, ringing Save this place  
- In the valley of tears  
- By the river of time  
From weapons race  
- In the Book of David  
- In the holy night  
When it's laid to waste  
- It will be written  
- By the children of Eden  
I said save this place  
- And the Holy Ghost  
- And the Holy Ghost Showdown at big sky  
Darkness at high noon  
Kiss tomorrow goodbye  
And that day could be soon Give us the strength  
Give us the wisdom  
And give us tomorrow Let the bells ring out (ring those bells)  
Hear the bells ring in  
Let the bells ring out (oh those people)  
Keep them ringing, ringing (ring those bells)  
Let the bells ring out (ring out)  
Hear the bells ring in (ring in)  
Let the bells ring out (oh those people)  
Keep them ringing, ringing (ring those bells)  
Let the bells ring out  
Hear the bells ring in  
Let the bells ring out  
Keep them ringing, ringing
