

Silas

Betty Who

Silas says he'll take me far away
You can tell he means it by the look on his face
Run until the hurt and every bird is far behind us
My Silas Silas says my name like it's a prayer
The quiet reverence hanging in the air
And as for demons running round my mind
You'll never find us, my Silas How could I deserve him when I could never earn him?
All that I can see is how kind he is to me
On the nights I cry til I can't breathe
Silas stays with me until I sleep
Hands that hold my heart so tenderly
Could never bind us, my Silas
I'm hopelessly romantic
And hopefully he can stand it
All that I can know
Is I never want to let him go Silas will be back for me one day
