

# Show You Love

Cas Haley

Don't ask me anything  
I will not know  
Don't ask me why I sing  
I will not know All alone, on my own  
Without her by my side  
What to do, what can I now say? I'm in love with a girl  
Who don't understand my world  
And I want her to come back What can I do to make it all better?  
What can I say to show you  
Show you love is real  
All of the time  
That we spend in each other's minds What can I do to show you love?  
Show you love  
Show you love  
It's all I wanna do  
You know I wake up crying every night  
Without you by my side  
Oh, what can I do to keep this love alive?  
You know that I want you, girl  
You know that I need you, too  
Oh, I would do what I gotta do  
To show you love  
Show you love  
Show you love  
It's all I wanna do  
Is show you love
