

# War On Drugs

## Fifteen

America can not afford another Viet Nam War  
Another prolonged foreign war will tear the system down from the inside  
The enemy is you, the enemy is me  
We got the war on drugs  
We're the enemy  
What it means is incarcerate all the young black men  
What it means is incarcerate all the Mexicans  
What it means is incarcerate all the poor whites  
What it means is incarcerate all the homeless  
At what point does it become ok for a person to  
Stand up and say out loud  
It's racist,  
It's genocide,  
It's slavery,  
It's a police state  
America can not afford another Viet Nam War  
Another prolonged foreign war will tear the system down from the inside  
America can not afford another prolonged foreign war  
Thank God we have George Bush to find us an enemy within our own borders  
The enemy is you, the enemy is me  
We got the war on drugs  
We're the enemy  
What it means is incarcerate all the young black men  
What it means is incarcerate all the Mexicans  
What it means is incarcerate all the poor whites  
What it means is incarcerate all the homeless  
It's all been done before in the last world war  
It's a solution for unemployment,  
Internment  
My enemy is a fucking pig  
My enemy lives up in the capital  
My enemy his name is Grey Davis  
My enemy his name is William Bennett  
My enemy wears a gun and a badge  
My enemy he guards the Mexican Border  
My enemy is building a prison just for me  
My enemy he throws down law and order  
My enemy is not a heroin junkie  
My enemy is not a speed freak  
My enemy is not a skid row alcoholic  
My enemy does not sleep on the street
