

Get Some Freedom (feat. Dragonette)

Big Data

You want it all, I understand.
Gimme the details and take my hand.
I think it's time for a new adoption.
Just get in line, baby, we've got options. Someone to like you.
Something to wear.
Somebody to believe you're with
Everyone everywhere.
It's a condition, and that's my business.
You've got suspicions, but I've got promise. Get. Some. Freedom.
Whatever you want, together we're in formation.
Just. Like. Everyone.
All of it now, swallow it down.
You're under order. You're my recruit.
I'll show you how to execute.
I want the willing without the reason.
We'll make a killing on the final season. Get. Some. Freedom.
Whatever you want, together we're in formation.
Just. Like. Everyone.
All of it now, swallow it down. Get some.
Get get some.
Get some.
Get some freedom. Get. Some. Freedom.
Whatever you want, together we're in formation.
Just. Like. Everyone.
All of it now, swallow it down.
Get. Some. Freedom.
Whatever you want, together we're in formation.
Just. Like. Everyone.
All of it now, swallow it down.
