## Don't Rush Me

## **Taylor Dayne**

Red roses, temptation
You make the most of an ify situation
I'm weighing my decision
Who's to say if it's love, or if it isn't?Only time will tell
Just how well I'll get to know you
Don't mean to lead you on
But I want to take it slowly, slowlySo don't rush me
I've made that mistake before

we made that mistake before

And don't rush me

This love could be so much more

It's well worth the waiting for

Desire can mean danger

I wanna lover, not another stranger

I'm saving all my passion

Who's to say if it's love or just attraction? Only time will tell

Just how well I'll get to know you

Don't mean to lead you on

But I want to take it slowly, slowlySo don't rush me

I've made that mistake before

And don't rush me

This love could be so much more

It's well worth waitingAnd don't rush me

I've made that mistake before

And don't rush me

This love could be so much more

It's well worth the waiting

And my resistance is weakening, weakening

Every time we touch

'Cause baby, you got everything, everything

That I've been dreamin' of So don't rush me

I've made that mistake before

But don't rush me

This love could be so much more

It's well worth the waiting And don't rush me

I've made that mistake before

And don't rush me

This love could be so much more, yeah, yeahBut don't rush me

I've made that mistake before

But don't rush me

I've made that mistake beforeBut don't rush me

This love could be so much more

But don't rush me

## I've made that mistake before
