## What a Feeling

## **One Direction**

Through the wire, through the wire, through the wire

I'm watching her dance

Dress is catching the light

In her eyes there's no lies, no lies

There's no question, she's not in a disguiseThere's no way out and a long way down

Everybody needs someone around

But I can't hold you, too close now

Through the wire, through the wireWhat a feeling to be right here beside you now Holding you in my arms

When the air ran out and we both started running wild

The sky fell down

But you've got stars in your eyes

And I've got something missing tonight

What a feeling to be a king beside you, somehow

I wish I could be there now

Through the wire, through the wire, through the wire

I'm watching you like this imagining you're mine

It's too late, it's too late, am I too late?

Tell me now, am I running out of time? There's no way out and a long way down

Everybody needs someone around

But I can't hold you, too close now

Through the wire, through the wireWhat a feeling to be right here beside you now

Holding you in my arms

When the air ran out and we both started running wild

The sky fell down

But you've got stars in your eyes

And I've got something missing tonight

What a feeling to be a king beside you, somehow

I wish I could be there now

Whatever chains are holding you back

Holding you back, don't let 'em tie you down

Whatever chains are holding you back

Holding you back, tell me you believe in that What a feeling to be right here beside you now

Holding you in my arms

When the air ran out and we both started running wild

The sky fell down

But you've got stars in your eyes

And I've got something missing tonight

What a feeling to be a king beside you, somehow

I wish I could be there now

I wish I could be there now
