

Feel Like a Fool

Kali Uchis

What can I do?
It's just too late to reach you
Your cigarette burnt holes all through my t-shirt
The truth is such a pain
Too horrible to name
They say don't blame the player
But he played the game
It's no fun to feel like a fool
When you learn your baby don't belong to you
Somewhere else might call it cruel
When you learn your baby don't belong to you
Love you for being sick and twisted
But pussy is a hell of an addiction
My heart went through a shredder
The day I learned about your baby mother's
'Cause you're a grown ass man
Now you should know better
But I still run all my errands in your sweater
'Cause the truth is such a pain
Too horrible to name
They say don't blame the player
But he played the game
It's no fun to feel like a fool
When you learn your baby don't belong to you
Somewhere else they might call it cruel
When you learn your baby don't belong to you
I can't look, closed my eyes
Can't believe it could look in mine
It's no fun to feel like a fool
When you learn your baby don't belong to you
Somewhere else they might call it cruel
When you learn your baby don't belong to you
No fun to feel like a fool, fool
It's no fun to feel like a fool
