

What It's Made For

Lil' Keke

I'm bout to make it rain, soon as I can change so you
can show me what that pussy made for.
I'm here to spend this money, so take it off for me
Girl I want you to show me what that pussy made for
Work the edge of the stage I see it in your face
Girl you wanna show me what that pussy made for
At the end of the night I'm gonna do you right girl you
Need to show me what that pussy made for:
I check ya forecast they tell me when it rains it pours
That pussy all mind this money all yours
Don't get it twisted I'm a g but I payed her
She took me to school and then showed me what's it made for
Super thick but being sexy wasn't the same thang
Between ya legs can get ya cheddar and a better name
