River of Soul

Robben Ford

Travel on so Sometimes you feel lonely People come and they go It's you and you only There's a river in my heart There's a river in my mind It's been there from the start Take a look and you will find Sail away, sail away Sail away on a river of soul Sail away, just sail away Sail away on a river of soul The power of soul Will never misguide you It can make you feel whole Even when you're being lied to There's a river in my heart There's a river in my mind It's been there from the start Take a look and you will find Just sail away on a river of soul Sail away, just sail away Sail away on a river of soul The power of soul Is waiting inside you With love as your goal It won't be denied you There's a river in my heart There's a river in my mind It's been there from the start Take a look and you will find Sail away, sail away Sail away on a river of soul Sail away, just sail away Sail away on a river of soul Sail away, just sail away Sail away on a river of soul Sail away, just sail away Sail away on a river of soul, brother
