## **Danger Line**

## **Avenged Sevenfold**

My 16 locked and loaded All fear has been avoided

You say the words and my weapon is drawn

This one could be my last timeSome people call it war crime

I may be staring down a lethal sight... to die

Nothing shocks you like a bullet hole

Leaving my fear on the danger lineSuffering a man should never know

Leaving my faith on the danger line

I do this for my family

My daughter loves her daddy

Too many talk down on things they don't know

With colors never faded, reckless and unabated

They may take me but never take us all (I'll crawl)

Nothing shocks you like a bullet holeLeaving my fear on the danger line

Suffering a man should never know

Leaving my faith on the danger lineI know what you're thinking, I've been there before

So think of the times, the time we spent laughing away

So think of the times at home (life without a care)

Now I find myself in my own blood

(Never thought I'd lie in my own blood)

The damage done is far beyond repair

I never put my faith in up above

(Never had much faith in up above)

But now, I'm hoping someone's there

I never meant to leave this world alone

I never meant to hurt the ones who cared

And all this time I thought we'd just grow old

You know, no one said it's fair

Tell my baby girl that it's alright, I've sung my last song today

Remind the lord to leave his light on, for me... I'm free
