

O.D.'D In Denver

[Hank Williams Jr.](#)

We started the tour out in Denver Colorado
I made the first one but I did not make the second show
Cause I met this girl there that brought about quite a big change
But I OD'd in Denver and I just can't remember her name
I guess you could say that my love life would not up to part
Too many nights alone had left some permanence scars
She told me she'd love me and I told her I'd do the same
Then I OD'd in Denver and I just can't remember her name
I brought it on myself and I guess that I shouldn't complain
Doc said son you can't do anymore of that cocaine
But she made me higher than all of those expensive things
But I OD'd in Denver and wish I could remember her name
I turned to other things tryin' to make my daydreams real
But they don't take the place of the woman's face and her feels
She treated me nice and I like to find her again
But I OD'd in Denver and I just can't remember her name
I brought it on myself...
Kinda overdid it in Denver and I just can't remember her name
