

Itch

Nothing But Thieves

There's a rumbling
In my head
It's getting louder
Louder
There's a shaking
In my bones
It's getting stronger
Stronger
There's a hunger
In my heart
It's full of promise
Promise
There's an itch
Under my skin
It's under my skin
Under my skin
'Cause I just wanna feel something real
'Cause I just wanna feel something
On the pavement
I am looking
For a lover
A lover
And my eyes are rolling
She noticed
There's a blood red
On my shirt
And it's shining
Shining
There's a sharp pain
From my face
I kinda like it
I like it
'Cause I just wanna feel something real
Wanna feel something
Something
I just wanna love
I just wanna touch
I just wanna see
Something
I just wanna love
I just wanna touch
I just wanna see
'Cause I just wanna feel something real
Wanna feel something
