

# Cannibal Queen

## Miniature Tigers

This is not a test or an SOS  
I'm no longer on a quest to get girls undressed  
I search through their hearts and no treasure I've found  
I'm so lucky this one lets dogs hang around. It's good having somebody good for a change  
I thought that no good, dirty cheats had drove me insane  
I've finally given up on love and romance  
If I lay down the sword I'm givin my innocence. (Coming for your heart like a cannibal)  
Oh, she lets me light in and I'm felt till I fall  
(If something goes wrong I'm a cannibal)  
Oh, a life without her is no life at all  
I la la la la la la la love you cannibal queen.  
If she ever left me I would break down and die  
Like Nicky and Peter could bury me alive  
Another pretty girl I would love to admire  
From a distance, but she's here so I'll jump in the fire. (Coming for your heart like a cannibal)  
Oh, she lets me light in and I'm felt till I fall  
(If something goes wrong I'm a cannibal)  
Oh, a life without her is no life at all  
I la la la la la la la love you cannibal queen.  
(Coming for your heart like a cannibal)  
Oh, she lets me light in and I'm felt till I fall  
(If something goes wrong I'm a cannibal)  
Oh, a life without her is no life at all  
I la la la la la la la love you cannibal queen.
