

Beating My Heart

Jon McLaughlin

There are times every now and then
I forget why I'm breathing out
And why I'm breathing in
And I get so sick with the little things
I can't relax when it's happening
To know what it means
It means
And then I open my eyes
And I know you're beating my heart
Beating my heart
Look at the sky
I know you're beating my heart
Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
There's a sun coming over the horizon
I wanna know where it's coming from
But doesn't everyone
It's like who am I and why am I here
And then I open my eyes
And I know you're beating my heart
Beating my heart
Look at the sky
I know you're beating my heart
Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
Beating my heart
This whole world will take me down
Without you standing by my side, my side
You're holding onto me
You're making everything inside
Come alive
And then I open my eyes
And I know you're beating my heart
Beating my heart
Look at the sky
I know you're beating my heart

Beating my heart
I go extra miles to show
That you are the one thing that I've got
Look at the sky
I know you're beating my heart
Beating my heart
