

# The Other Side

## Scissor Sisters

What will one day become of us  
We'll grow as grass under their feet  
No one here will ever know your name  
And you still lie here next to me If it takes another life, I'll wait for you  
On the other side  
Everything that comes to me as good  
Belongs to you I'll count our blessings as I wait for you  
On the other side  
Good luck and I will see you through  
Get used to this, you're going to be alright  
The world goes on with or without me  
If I don't ever leave a thing behind  
I'll still leave you without me If it takes another life, I'll wait for you  
On the other side  
Everything that comes to me as good  
Belongs to you I'll count our blessings as I wait for you  
On the other side  
Good luck and I will see you through If it takes another life, I'll wait for you  
On the other side  
Everything that comes to me as good  
Belongs to you  
I'll count our blessings as I wait for you  
On the other side  
Good luck and I will see you through And I have a right to be a nothing  
And I have a right to be loved  
There'll be over the rainbow for me
