

Call Off Your Dogs

Lake Street Dive

Hello
I'm not gonna bite you
Just want a light
You got me wishing that I never said hello
Don't wanna fight you
I don't got a right to
This is what I get for being civilised
I apologise, I'll let you go in a minute
If you want a goodbye, it's not what I want to say
Took my salutations and threw 'em away
Call off your dogs
Listen when I call
I know there's something wrong with the limits
We got turned around, but we could spin it
Call off your dogs
What's with the world?
If we're strong, we can win it
One word can't begin it
Hello
I got a right to call you, baby
I got a right to say hello Remember when you used to like me baby? And it wasn't that long ago
This is what I get for being civilised
I apologise and I'll let you go in a minute
If you want a goodbye, it's not what I want to say
You took my salutations and threw 'em away
So call off your dogs
Listen when I call
I know there's something wrong with the limits
We got turned around, but we could spin it
Call off your dogs What's with the world?
If we're strong, we can win it
One word can't begin it
Hello
Call off your dogs
Listen when I call
I know there's something wrong with the limits
We got turned around, but we could spin it
Call off your dogs
Oh, what's with the world?
If we're strong, we can win it
One word can't begin it
Oh, call off your dogs

Listen when I call
I know there's something wrong with the limits
We got turned around, but we could spin it
Call off your dogs
Hey, what's with the world?
If we're strong, we can win it
One word can't begin it
Hello
