

# Right Now (feat. ELHAE, D.R.A.M. & H.E.R.)

## Snakehips

Yeah

She said she rather be high  
So it's up, up and away we go  
To somewhere that they don't know  
You know feelings slow me down  
And it ain't right, but it's right now  
You know feelings slow me down  
And it ain't right Party everyday, why we waitin' on the weekend?  
'Cause she know that I know what she came here to do  
We'll be diving off the deep end, woah  
'Cause I'll be in my zone, ooh  
Pressin' up like defense, woo  
And now we on a roll, everythin' is slow-mo  
No discussions, skip the pretense (let's not make it complicated)  
You know when we get together we probably won't act right  
You've been talkin' shit forever, but tonight's the last time  
Bottle on the table, like the one we finished last night  
Hold up on the breaks and hit the gas She said she rather be high  
So it's up, up and away we go  
To somewhere that they don't know  
You know feelings slow me down  
And it ain't right, but it's right now  
It ain't right, but it's right now  
We ain't right, we ain't right, oh  
You know feelings slow me down  
And it ain't right, but it's right  
Girl you always firing off on me, that's target practice  
And I can't stand it when you mad, but it looks so attractive  
And I got somethin' in my pocket that makes both of us happy  
And we'll be geekin' off for hours off that dope and candy  
Said we be freakin' for some minutes, but it feels like hours  
Said we would be stuck up off that OG, but it smells like sour  
And I can't stand you when I'm sober, would you still come over?  
You drive me crazy, you're my chauffeur 'til the Uber show up She wanna get faded, so we  
gonna let the night turn grey  
And we gonna let the wraps burn slow  
We gonna let the party turn way up, ooh You know when we get together we probably won't act  
right  
You've been talkin' shit forever, but tonight's the last time  
Bottle on the table, like the one we finished last night  
Hold up on the breaks and hit the gas She said she rather be high  
So it's up, up and away we go

To somewhere that they don't know  
You know feelings slow me down  
And it ain't right, but it's right now  
It ain't right, but it's right now  
We ain't right, we ain't right, oh  
You know feelings slow me down  
And it ain't right, but it's right Snakehips  
One bottle, two people and no chasers  
Me and lil' mama, solve our problems  
By gettin' wasted off the alcohol, marijuana and etcetera  
My boo thang, always and forever, yeah  
We problematic, so it has it  
But who ain't got problems?  
We all have 'em, yeah  
But she still a baddie, I'm still her daddy  
And we're higher, than all y'all  
Still at it, still at it
