

# This Is Now

## Hatebreed

Another memory and I'm asking myself  
Why can't I let the past be the past  
Once and for all take a hold of the future  
And not let it control what I aspire to have  
I see where my decisions have brought me  
What's done is done and its time to start again  
Can't let it tear me in two, or waste me away  
I gotta believe Cause this is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny  
This is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny  
What I've seen and what I've been through has made me who I am  
There was a time in my life where I had no desire to carry on  
I couldn't see a place for me or a will to survive  
I never thought to rely on myself or the beliefs that I had denied But this is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny  
This is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny If I control myself  
I control my tomorrow  
I got to change today  
Cause this is now  
Now (Now!), Now (Now!)  
This is now How can I change tomorrow if I can't change today  
I must control myself if I'm to control my destiny Cause this is now  
This is now... This is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny  
This is now (Now!)  
How can I change tomorrow if I can't change today  
This is now (Now!)  
If I control myself I control my destiny
