

You and I (Stripped)

PVRIS

I know it's warmer where you are
and it's safer by your side
But right now I can't be what you want just give it time
And if you and I can make it through the night
And if you and I can keep our love alive, we'll fight.
We can meet in the middle, bodies and souls collide, dance in the moonlight when all the stars
align for you and I
For you and I
Ooohooo Ooohooo Ooohooo
Ooohooo Ooohooo Ooohooo
And it's cold when we're apart
and I hate to feel this die
But you can't give me what I want
just give it time
And if you and I can make it through the night
And if you and I can keep our love alive, we'll fight
We can meet in the middle, bodies and souls collide, dance in the moonlight when all the stars
align for you and I
For you and I
Ooohooo Ooohooo Ooohooo
Ooohooo Ooohooo Ooohooo
But for now we stay so far
till our lonely limbs collide
I can't keep you in these arms
So I'll keep you in my mind
(Reaching out) But for now we stay so far
(can't feel you now) till our lonely limbs collide
(Reaching out) I can't keep you in these arms
(Can't feel you now) So I'll keep you in my mind
Can we meet in the middle, bodies and souls collide, dance in the moonlight when all the stars
align for you and I
For you and I
Ooohooo Ooohooo Ooohooo
Ooohooo Ooohooo Ooohooo
