

Graveyard Chamber

Gravediggaz

Chorus: Rzarector Danger Danger, Danger Danger

The Graveyard Chamber

Danger Danger, Danger Danger, Danger Danger

The Graveyard Chamber

Danger Danger, Danger Danger

Enter the Graveyard Chamber

Danger Danger Stranger is major

Enter the Graveyard Chamber Verse One: Grymreaper

Ahh, Here a moan

The night is dark and feel fear

You're lost, cold and confused

But I'm in prayers

Afraid of a beast that stalked the earth

You're bringing the Jesus

It cross don't work (ha ha ha)

I seen your type before

You read all the laws but

you're scared to go to war

Timid and frail why faith got ya geese

Ya stolen the truth and that all your beliefs

Are you aware son

it's nowhere to hide, nowhere to run

Grymreap comes with my dangerous tongue

I'm outta control like yo kids with guns

Words that stored in a murderous thoughts

My profile as nasty as maggots in pork

I'm dark and damp

enough to rush amps

with the jaws of a flatbull or rusty can

Partial Chorus Verse Two: Dreddy Krueger I be the Bushwick dutchmaster rapper

I love black women and I hate fuckin crackers

Check me yo

My breath stink 'cause I smoke skunk punk

everyday of the month

in a dutchmaster fuckin blunt

Bust the cliché

Niggas talkin he-say-she-say about me

ya bitch-ass-niggas

Y'all not ass, y'all titty

y'all style is shitty

How dare you try to represent New York fuckin City

I been down since BVDs and dew rags

shelltops and shags
I was a little badass with regular and tre bags
Always tryin to get shit I never had
'cause times is bad like luck
That's why I don't give a fuck
I dig up my nose and my butt
on the bus or the train
This is for niggas walkin in the rain
listenin to they walkman(e)
talkin the New York fuckin slang
Partial Chorus Verse Three: Rzarector
In the streets of New York

bullshit walk, green talks
I be the giant on the top of your beanstalk
waving down your flags
jagged grab niggas with bloody rags
holdin fat bags
takin heavy drags
then I add more shells to the mags
Shots goin off you getin caught like tag
The diamond crystal I be rippin up your flesh tissue
and have my pitbull lockin on your bone gristle
Castin shadows in every battle
I rabble words like scrabble
drag your brain through the gravel
at the speed of sound of ryhme travel
Allow me to dabble
with a flow that's infallable
Maintain your order
as words I slaughter
I destroyed a
whole city like Sodom and Gomorrah
or Babylon
I'm runnin shit like a marathon
Niggas frontin Don
with a set like Frank Avalon
Verse Four: Scientific Shabazz
Shabazz is here to cause panic
Another fuckin madman born to the planet
Sendin niggas to the pearly gates
I'm psyched out
I got screws loose like Norman Bates
Shoot shit up like it's a gallery
Blowin snakes heads off to earn me a salary
Devils choke from the gunsmoke
Once I'm provoked,
I shove a fifth long down ya throat
and let ya taste the steel
Another body unidentified
Shit from the pot is spilled
Ya punk ass'll get out traumaed
I'm swellin devils' melons for my man Farak' Muhammed

Get a crew and try to surround me
 and one by one I'll light y'all up
 and send ya asses to King's County
 Solo pro-morgue supplier
 Ya want a nigga bang
 Fuck Spenser, 'Bazz for hire
 Verse Five: Gatekeeper
 Make room the masculine Gatekeeper
 kicks suspense in a terrified forms
 that keep you warm
 You're tensed up
 Niggas get wrenched up
 on a rock
 Mix a whiplash,
 bodies are gettin' smashed
 So let the volcano blow and erupt
 Destruction drift off
 Niggas are gettin flipped on
 Yeah comin after ya, huh
 I only got half a ya
 Other part froze in Alaska
 While define the feast a high beam
 Ghost of a drug fiend
 I'm physical dreams
 I breathe steam
 Thoughts are plutonic
 The chronic scripture
 angles and riptures
 I get ya
 Yo, I smash like a comet
 Punish tha drain ya
 Partial Chorus
 Verse Six: Killa Priest
 I stalk the face like a leopard
 The microphone shepherd
 is speakin parables one and two, catch it
 The brain counselor, track fertilizer,
 the murdalizer
 You never heard a wiser
 I open heads like the archives
 Allow me to explain my brain in the darkside
 I strike ya beam
 and watch it gleam
 I'm solar,
 steadfast, patient like Noah
 The rap psycho
 be the enlightener
 Prey upon the weak and strong I'm the sniper
 And light that ass like gasoline
 I dig through your chest like a jar of vasoline
 I leave your brain regurgitating placid
 until your rhymes are exaperated
 I clip up a niggas thoughts
 with a pool of zodiac signs

and I slowly attack the mind
The Killa Priest will bend your ideas
I see you cry in fear
There's no surviving hereChorus
