

Surreal (feat. RKCB)

Louis Futon

? lately (4 times) Take hold of me
You're flowing through my bones
Like ecstasy, ecstasy
Feeling heavenly
You open up my world, girl
Hold the key, hold the key Reeling me in
Bending me backwards later
Speaking sins
Oh, I'm tellin' you now I want you to feel, oh
I want you to feel surreal
I want you to feel, oh
I want you to feel surreal, oh
Slow-motion, syncopate
The swaying of your body keeps me seeing straight
Seeing straight
Don't you wanna celebrate?
'Cause when we come together it's a tidal wave
Tidal wave Reeling me in
Showing me skin, bending me backwards I can't
Go with the wind
And I'm up in your clouds I want you to feel, oh
I want you to feel surreal
I want you to feel, oh
I want you to feel surreal, oh
Want you to feel me, baby
Don't leave no hesitation
See where my touch can take ya
Oh, no
Want you to feel me, baby
Don't leave no hesitation
See where my touch can take ya I want you to feel, oh
I want you to feel surreal
I want you to feel, oh
I want you to feel surreal
I want you to feel, oh
I want you to feel surreal
I want you to feel, oh
I want you to feel surreal, oh
