

Secret (feat. Jeremih & Serani)

Burna Boy

I know, know
I know, know
I know, know, know, know Baby, can you keep a secret? (Shhhh) For a long, long time
When you are awake or sleepin', (Shhhh)
Say my name, no time
I know, you want to be my baby, oh
But I got my wife
I know you want, you want to be my wife Hey, say make me tell ya somethin' girl if you relax
And don't be tripping when I leave 'cause I'll be back
Your friend 'em inna your ears
Dem a chat na-na, girl don't bother listen to none a that
I know you like it when I hit it from the back
I know you like it when I spend the money stack
I got a wifey but don't worry about that
You already knew that when I hit you on the 'gram
I know, you wanna spend more time, spend more time
I know you wanna spend more time, but eh
Baby, can you keep a secret? (Shhhh) For a long, long time
When you are awake or sleepin' (Shhhh)
Say my name, no time
I know, you want to be my baby, oh
But I got my wife
I know you want, you want to be my wife Oh God
When me on bed that no mean say me done
Baby girl, I'm tryna show you where I'm coming from
You only talking crazy 'cause I make you cum
Everytime I bring you closer, closer
Smack your booty and choke ya
March like a soldier when I tell you come over, yeah
I know, you wanna spend more time, spend more time
I know you wanna spend more time, but eh
Baby, can you keep a secret? (Shhhh) For a long, long time
When you are awake or sleepin' (Shhhh)
Say my name, no time
I know, you want to be my baby, oh
But I got my wife
I know you want, you want to be my wife She wanna dance to the beat, wanna conversate
Might end up in her bed, if it cost a day
It could be about a week when we on vacay
You know you got it coming, when you come my way
Might fuck up in this club, got a song away
I tend the love for the woman that's the one for me

I give you everything, you still want it all from me
I will pull up when you need company I know, you wanna spend more time, spend more time
I know you wanna spend more time, but eh
Baby, can you keep a secret? (Shhhh) For a long, long time
When you are awake or sleepin' (Shhhh)
Say my name, no time
I know, you want to be my baby, oh
But I got my wife
I know you want, you want to be my wife
(You want to be my wife)
(You want to be my wife)
