

# You're So Rude

## Faces

My mum she likes you  
She thinks you're swell  
Got the makings of a dance hall girl  
Your low cut frock and your bird's nest hair  
Stiletto heels and the way that you swear  
She said to take you back to see my folks again on Sunday  
Why, it looks as though there's  
nobody in  
They've all gone out to see my Auntie Renee  
Don't you worry, you just come right in  
I'm sure we'll pass the time til' they come home  
Well, let me take your coat, kick off your shoes  
Warm your toes, try the sofa  
It's getting dark, we'll miss the late night bus, it's only eight?  
Well, I'm not takin' any chances  
What's that noise, why'd they come back so soon?  
Straighten your dress you're really looking a mess  
I'll wet my socks, pretend we just got caught in the rain  
Oh, you're so rude
