

Demon

Lil Wayne

Sleeping with the enemy, my demons are too intimate
She's sleeping very gently so now they're starting to enter it
And now they're starting to mentor me, geekin' like Brittany
 Tweaking my energy,
 Eat and die sympathy
 Scream and cry, Infamy
 Come alive mentally, and love, die physically
 My love cry miserably
 Hugs getting looser, her tongue tied kissing me
She fucked thy niggas see now they both igging me
 But demons got dignity
 Demons got memories, I had a lil' revenge in me
 So now I'm at synthesizing, 'bout to stop giggling
 And dinner start sizzling
 A demon with demands, a demon with demands
A demon with demands, a demon with demands She agree to my demand too
 Brought the demon out her ass too
I'm a demon not the man, you A Demon with demands, a Demon with demands
 I'm a Demon with demands, I got demons on demand, yeah yeah yeah
 I'm a demon not the man, you, bought the demon out the man, ooh
 Bought the demon out the man, ooh
 The demon out the man
Bought the demon out the man, ooh You done pulled the demon out the man
 Pulled the demon out the pants
 Put the demon in your mouth
 Then pulled it clean up out your ass
 Took her demon by the hands
 Asked the demon can we dance
 Found a halo in her trash but she don't talk about her past
 A demon with demands, a demon with demands
A demon with demands, a demon with demands A Demon with demands, a Demon with
 demands
 I'm a Demon with demands, I got demons on demand, yeah yeah yeah
 I'm a demon by demand too, bought the demon out the man, ooh
 She agree to my demands too,
 you done bought the demon out the man ooh
Bought the demon out her ass too Sleeping with the enemy, my demons are too intimate
 She's sleeping very gently so now they're starting to enter it
 And now they're starting to mentor me, geekin' like Brittany
 Tweaking my energy, Eat and die sympathy
 Scream and cry, Infamy, Come and lie mentally,
 and love, die physically, my love cry miserably

Hugs getting looser, her tongue tied kissing me
She fucked thy niggas see now they both igging me
But demons got dignity
Demons got memories, I had a lil' revenge in me
So now I'm at synthesizing, 'bout to stop giggling
And dinner start sizzling
A De-mon with de-mands, a De-mon with de-mands
A De-mon with de-mands, a De-mon with de-mands You done pulled the demon out the man
Pulled the demon out the pants
Put the demon in your mouth
Then pulled it clean up out your ass
Took her demon by the hands
Asked the demon can we dance
Found a halo in her trash but she don't talk about her past Wipe the demon out her ass too
Demonic, demonic, demonic, demonic,
demonic, demonic, demonic, demonic, demonic
Demon with the man, demon with the man
Demon with the man
