

Pulsing (feat. Nina K)

Tomas Barfod

Down with the time, light as a feather
That way you waited, that is, believe me, no better
.when I call you the better.
Where is your heart?
I'm coming over
Having made love . all over my body
Making love to somebody.
Now that he's here... I'm clouded
My heart has never beated louder
I can't believe that I doubted,
I doubted you!
Taking my hand into my heart
I'm coming out, I'm coming out
Pulsing in love
Pulsing into one
Pulsing into us!
Over my head, into my heart
I'm coming out, I'm coming out
Pulsing in love
Pulsing into one
Pulsing into us! All of your dreams only come out at night
There where you are, none of your colors are daylight
Do they not give a daylight?
Where is your heart?
I'm coming over!
With love over my body
Making love to someone
Love to somebody new!
Taking my hand into my heart
I'm coming out, I'm coming out
Pulsing in love
Pulsing into one
Pulsing into us!
Over my head, into my heart
I'm coming out, I'm coming out
Pulsing in love
Pulsing into one
Pulsing into us!
