

Dark Side of Love

Calvin Richardson

I got a girl
She give me attitude
She'll get on my last nerve
Just for something to do
She likes playing games
Drives me insane
I can't turn her loose
I can't do it girl
Now she comes around
When I'm feeling low
She just pulls me down, down even lower
Til' I'm on the floor
What we got going on
All kind of wrong
I can't let her go
No, no
She keep me stuck in the dark
Dark side of love
We be loving in the dark
Dark side of love
Love the way that you do what you do when you do it now
Can't get enough
You know I be trying
To get you off my mind
You know this love is blind
Cold all the time
On the dark side
Dark side of love
She keep tearing me down
Just to make me weak
I can't even trust my own best friend
When she's out in the street
Shoot I know I'm a fool
But lord how she do when she's working on me
See we stay stuck in the dark
Dark side of love
We love in the dark
Dark side of love
I love the way that you do what you do when you do it
I can't get enough
Can't get enough
You know I be trying
But you got my mind
On the dark side
Now she ain't the kind of girl that you can just bring home
Or the kind that you can leave alone
You better beware what you wishing or what you pray for
Sometimes they can come true
Now she gone do me again
Maybe she'll bring a friend
And take all my pride, my soul, and my money
Til' I'm drained again

I hate that she steals but I love how it feels
My angel of sin Damn this love in the dark
Dark side of love
Making love in the dark
Dark side of love I love the way that you do what you do when you do it
I can't get enough, baby
Can't get enough You know I be trying
But you got my mind
Now love ain't this blind
Cold like wintertime
So baby come on
Do me one more time
On the dark side of love
Dark side of love
