

# Champagne Problems

Nick Jonas

How many times have we been here before?  
How many pieces have to break?  
So many reasons not to celebrate  
But I hate to see you cry so let's drink before goodbye  
I got a bottle I've been saving up  
Thought that we'd drink it on that day  
We were the opposite of breaking up  
Can't believe I'm losing you  
We just opened up too soon  
We got champagne problems  
Only one way to solve 'em  
Raising our glass cause it's our last  
With these champagne problems  
Just keep on, keep on drinking  
Keep on, keep on drinking  
Keep on, keep on...

How did our clothes end up on the floor?  
Didn't we just break each other's hearts?  
Didn't you have one foot out the door?  
Better to fall in love than lose, wish I didn't have to choose  
We got champagne problems  
Only one way to solve 'em  
Raising our glass cause it's our last  
With these champagne problems  
Just keep on, keep on drinking  
Keep on, keep on drinking  
Keep on, keep on...

We got champagne problems  
Oh my God, the room is spinning from the Pérignon  
And you're still with me but you're very gone  
It feels so right but we both know it's wrong  
When you got, when you got, when you got...  
We got champagne problems  
Only one way to solve 'em  
(One way to solve 'em)  
Raising our glass cause it's our last  
With these champagne problems  
Just keep on, keep on drinking  
Champagne problems  
(Keep on, keep on drinking, yeah)  
Only one way to solve 'em  
(We got champagne problems)

Raising our glass cause it's our last  
With these champagne problems  
Just keep on, keep on drinking  
Keep on, keep on drinking  
Keep on, keep on...  
We got champagne problems, woo
