Lights

White
White
White
WhiteWhite
White
White
WhiteAre there oceans full of things you never say
Are there skylines of the cities you don't see
Is there music
Muted
Playing underneath
Is mathematics keeping you from thinking free
Do you see lights
Turn your shadows whiteWhite
White
White
WhiteWhite
White
White
WhiteDon't let rain clouds cry at all of your parades
Let the other side of darkness kiss your faceInto the sea
Into the seaDo you see lights
Turn your shadows white
Do you feel bright
Turn your shadows whiteAll the things I want to say
All the shadows in the wayDo you see lights
Turn your shadows whiteDo you feel bright
(Do you feel)
Turn your shadows whiteWhite
White
White
WhiteWhite
White
