

# Nothing Left to Say

## Staind

Talk to me, you never talk to me  
Do we suffer from, social atrophy  
And when the conversation's over  
When the conversation's over We've taken what's been given  
And we throw it all away Walk with me  
Come on and walk with me  
Take a look around you  
Do you like what you see  
We've taken what's been given  
And we throw it all away  
It's hard to be forgiven  
When there's nothing left to say When the conversation's over  
The silence just gets in the way  
Conversation's over Talk to me, don't ever talk for me  
We've taken what's been given  
And you throw it all away  
It's hard to be forgiven  
When there's nothing left to say There's nothing left to say
