

White Bronco

Action Bronson

[Verse]

Yeah, it's true, the Lamborghini truck light blue
The shotty down my leg and we stuck like glue
My shorty like, "Damn, nobody fuck like you" (I ain't know)
One love to my uptown crew
This new shit swing like Tiger at the Masters... You could keep your little bullshit advance,
understand? I'm in the Amazon chewing on plants
Motherfuckers can't afford me, plus I'm in the middle of this orgy
Just hit me back in like 40, shit, I live so much
No time for looking back, only up, 'cause there's no roof on the truck
You could shoot a duck, and yeah, I know that's cruel as fuck
And no, I wouldn't recommend it, but did I mention?
The Porsche 911 got a second engine to send your boy into the 7th dimension
Hell is cheap... Hell is expensive though
