

Shadows (Jens Lekman Remix)

Au Revoir Simone

You tell me
That it's getting better
But every time that we say goodnight I'm haunted by your eyes
And how long they've been crying Don't tell me
About a bad reaction
Don't tell me that you plan to hide Reasoning aside I'm moving on
I hope your coming with me
I hope your coming with me
Anyone can answer their own questions
All you have to do is look inside You know it inside
You know it will be alright You know its alright
I'm moving on
I hope your coming with me
Cause I'm not strong without you Don't blame it on your shadows Cause I know all about you
