

Thunder

[RY X](#)

Lover, lover
What have we done
Let our heart leap Then it gave up Lover, lover
Let me in
Make my heart leap
Under your skin Couldn't we both
Try to say no
Try to not reach
For heaven Tied to a post
Tight like a rope
Try to not reach
For memories
Lover, lover
What have we done
We made our heart leap
Then it gave up Lover, lover
Let me in
Make my heart leap
Under your skin You came in the door like thunder
Then hit the floor like thunder
Laying me down you wonder
You came towards like thunder You came in the door like thunder
Then hit the floor like thunder
Laying me down you wonder
You came towards like thunder
You came in the door like thunder
Then hit the floor like thunder
Laying me down you wonder
You came towards like thunder You came in the door like thunder
Then hit the floor like thunder
