

Playin' Tricks (feat. Charles Esten)

Nashville Cast

Here i am feeling lonely, here i am feeling blue
Thinking about picking up the phone about calling you
Ought to be a little more careful after what went down last time
'cause you got my heart playin' tricks on my mind
Tear stains on my pillow
Bottles in the trash
I'm a little bit long on sorrow
and a little bit short on cash
It ought to be an indication, it ought to be a real bad sign
That you got my heart
Playin' tricks on my mind
First I start looking at your picture
that's how it all began
Thinking things are going to be different
When I get you back again
I don't know how you do it
But you do it every time
Yeah, you've got my heart playin' tricks on my mind
Yeah, you've got my heart playin' tricks on my mind
I swore I wouldn't let this happen
I wouldn't come crawling back
You're trouble but I keep on asking
Like I'm looking for a heart attack
Baby I could see it coming
Honey, I ain't blind (I ain't blind)
But you got my heart playin' tricks on my mind
Yeah, you've got my heart playin' tricks on my mind
On my mind
On my mind
On my mind
On my mind
