

Sweet Sour

Band of Skulls

Take you by the hand and feed you
Do you really feel the need to talk about it?
Now you're fighting for your corner
Sayin' that you oughta laugh about it
You should get a little braver
Do us all a favor, shout about it Sweet sour
Sweet sour
Sweet sour Pick up your stitches
Better than your riches
Think about it
I know what you've been through
We don't really need to talk about it
It's just a little calmer
Tryin' to disarm ya
Shout about it
Sweet sour
Sweet sour
Sweet sour Sweet sour
Sweet sour
Sweet sour
Sour by the minute but you're sweeter by the hour You were none the wiser
Even though you tried to understand it
Try another spoonful
Love is to be truthful
Dance around it
It's just a little calmer
Tryin' to disarm ya
Shout about it Sweet sour
Sweet sour
Sour by the minute but you're sweeter by the hour
Sweet sour (11x) Sweet sour
Sweet sour
Sour by the minute but you're sweeter by the hour
