Sweet Sour

Band of Skulls

Take you by the hand and feed you
Do you really feel the need to talk about it?
Now you're fighting for your corner
Sayin' that you oughta laugh about it
You should get a little braver
Do us all a favor, shout about itSweet sour
Sweet sour
Sweet sour
Sweet sourPick up your stitches
Better than your riches
Think about it
I know what you've been through
We don't really need to talk about it
It's just a little calmer

Tryin' to disarm ya

Shout about it

a .

Sweet sour

Sweet sour

Sweet sourSweet sour

Sweet sour

Sweet sour

Sour by the minute but you're sweeter by the hourYou were none the wiser Even though you tried to understand it

Try another spoonful

Love is to be truthful

Dance around it

It's just a little calmer

Tryin' to disarm ya

Shout about itSweet sour

Sweet sour

Sour by the minute but you're sweeter by the hour

Sweet sour (11x)Sweet sour

Sweet sour

Sour by the minute but you're sweeter by the hour
