

If You Like What You See (feat. Catrina Powell)

Jesse Powell

(Verse 1)

I see you over there
You've got your eyes on me
Hoping that I won't notice
I feel it in your stare
You're inviting me to touch your heart
You're not sure just where to start
So, baby
Come over here
I won't bite you
Baby, I like you
If you've been hurt before
I won't let you down
I'm only one of a few good men that's left to go around

(Chorus)

If you like what you see
Don't hide it from me
'Cause I would never leave you alone
If you like what you see
Come share, share my love
And the dream that a broken heart that's lost
Can find it's way home, home... (Verse 2)

So, baby, take my hand
And we'll be half way home
The rest to me is destiny
We stand at love's command
I'll protect, defend and honor you
There's no fear when love is true
So, baby
I'm coming over there
'Cause I believe you really care
