If You Like What You See (feat. Catrina Powell)

Jesse Powell

(Verse 1)

I see you over there

You've got your eyes on me

Hoping that I won't notice

I feel it in your stare

You're inviting me to touch your heart

You're not sure just where to startSo, baby

Come over here

I won't bite you

Baby, I like you

If you've been hurt before

I won't let you down

I'm only one of a few good men that's left to go around

(Chorus)

If you like what you see

Don't hide it from me

'Cause I would never leave you alone

If you like what you see

Come share, share my love

And the dream that a broken heart that's lost

Can find it's way home, home...(Verse 2)

So, baby, take my hand

And we'll be half way home

The rest to me is destiny

We stand at love's command

I'll protect, defend and honor you

There's no fear when love is true

So, baby

I'm coming over there

'Cause I believe you really care
