

# Be Together (feat. Wild Belle)

## Major Lazer

Let me escape in your arms  
Baby I'm yours, baby I'm yours  
Love don't come easy at all  
I miss you so much, I miss you so much  
Tell me is this freedom, baby?  
Chasing after danger, making my heart race, woah  
Maybe if the stars align, maybe if our worlds collide  
Maybe on the dark side we can be together, be together  
Maybe in a million miles, on the highway through the skies  
Someday soon we'll be together  
He was a dreamer at heart  
Chasing the stars, chasing the stars  
Wings spread to the sun  
I miss you so much, I miss you so much  
Tell me is this freedom, baby?  
Chasing after danger, making my heart break, woah  
Maybe if the stars align, maybe if our worlds collide  
Maybe on the dark side we can be together, be together  
Maybe in a million miles, on the highway through the skies  
Someday soon we'll be together We'll be together, we'll be together  
We'll be together, we'll be together  
We'll be together, we'll be together  
We'll be together, we'll be together Maybe if the stars align, maybe if our worlds collide  
Maybe on the dark side we can be together, be together  
Maybe in a million miles, on the highway through the skies  
Someday soon we'll be together  
Maybe if the stars align, maybe if our worlds collide  
Maybe on the dark side we can be together, be together  
Maybe in a million miles, on the highway through the skies  
Someday soon we'll be together (We'll be together)
