Snakeface

Throwing Muses

Not another drive-in movie You know you can't sit still Move me Snake Snake Face out an open window Water in my eyes Beat me to it Meet me here next time One more button undone You talk too loud I'm talking to you Talk it into the ground Move me Snake Snake Face out an open window Fire in my eyes Beat me to it Meet me here next time One more button undone Next week I'll be a lousy liar Next time I'll say when You move me
