

Under Denver

Asking Alexandria

Just wait and see, just sit and breathe
Your life's unimportant, your ego's distorted
Just let what is, be
Delusions of control, how's the wool feel?
Pre-decision doesn't mean that this is not real
Why throw away what you've been given to spite it? What will be, will be
Children of the world, dream in peace
The fourth will watch over you
Sleep and you'll know the truth
Children of the world, dream in peace
Here, rebuild in solitude
Under Denver calling you
You're not alone, your truth is wrong
It's best to accept it
No sense in resisting
Just let what is, be
Listen, follow orders, buy, consume, sell
Stay on the surface, it's okay to trust the system
Tried and tested, they know best
They know the outcome What will be, will be
Children of the world, dream in peace
The fourth will watch over you
Sleep and you'll know the truth
Children of the world, dream in peace
Here, rebuild in solitude
Under Denver calling you
They're more than we
They hold the keys
They live in the silence
Just offer compliance and what will be, will be Children of the world, dream in peace
The fourth will watch over you
Sleep and you'll know the truth
Children of the world, dream in peace
Here, rebuild in solitude
Under Denver calling you
