

Midnight Bottle

Colbie Caillat

Midnight bottle take me, come with few of my memories
And everything, well, come back to me
Midnight bottle make it real what feels like make believe
So, I can see a little more clearly
Like every single move you make
Kissing me so carefully
On the corners of my dreaming eyes I've got a midnight bottle, gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight A midnight bottle, gonna ease my pain
From all these feelings driving me insane
I think of you and every thing's all right
If only for tonight
Got a midnight bottle, drifting off into the candlelight
Where I can find you in your time
A midnight bottle,
I forgot how good it felt to be in a dream
Just like you had me
'Cuz lately, I've been stumbling
Feels like I'm recovering
But I think it's only for tonight I've got a midnight bottle, gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight A midnight bottle, gonna ease my pain
From all these feelings driving me insane
I think of you and every thing's all right
If only for tonight
If only for tonight, oh, if only for tonight
If only for tonight I've got a midnight bottle, gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight A midnight bottle, gonna ease my pain
From all these feelings driving me insane
I think of you and every thing's all right
If only for tonight, yeah Midnight bottle, take the time away
From where we are
