

Chuck Berry

Pharrell Williams

Say I can tell you need to get away
Why don't you stand there and shake in place
Look Let me see your energy
Let me see your energy
Let me see your energy
Let me see your energy Do your move
Charge through the wind
Do it all again
Ooh, come on now
Ooh, come on now
Ooh, come on now
Do your move
Charge through the wind
Come on now
Do it all again
Ooh, come on now
You, come on now
You, come on now
Now go I remember when I was a boy
Future was so hopeful, catch the joy
A land so hard that we had to leave
Ooh, I gotta a baby now to help me see
She can feel what they's thinking
But little did I know that the energy
Is the same thing as the energy Some do not believe that you could
Feel the need within you too but
Need to prove it with the music
Move your body, love you, love you more
Some do not believe that you could
Feel the need within you too but
Need to prove in with the music
Everybody watch your body go
Do some good come on now charge through the wind
Come on now
Do it all again
Ooh, come on now
Do your move
Come on now
Charge through the wind
Charge through the wind now
Do it all again
Do it all again now

Let the girls say, Ooh
Make the girls say, Ooh
Make the girls say, Ooh Look here, look here
Look here, look here
Look here, look here
Look here, look here I remember when I was a boy
Used to think the old folks told the stories
I wouldn't believe what I could not see
I woke up and I was on my knees
I can feel what they could see
The darkness told me that I could not leave
I broke the shackles and I went free Some do not believe that you could
Feel the need within you too but
Need to prove it with the music
Move your body, love you, love you more
Some do not believe that you could
Feel the need within you too but
Need to prove in with the music
Everybody watch your body go Go, go, go
Go, go, go
Go, go, go
Go, go, go
Go, go, go
Go, go, go
Go, go, go
Go, go, go
Go, go, go One, two
One, two, three, four
Come on now, hey
Come on now
Hey
Hey, hey, hey
