

# Wasted

## Brandi Carlile

If you had eyes like golden crowns and diamonds in your fingertips you'd waste it  
If shining wisdom passed your lips and traveled to the ears of god you'd waste it  
And so I hate that your overrated most revered and celebrated cause you're wasted  
Then again  
it's good to get a call  
Now and then just to say hello  
Have I said I hate to see you go... hate to see you go  
Every time you close a door and nothing  
opens in its place you've wasted  
And when you speak the words you know to those who know the words themselves you're  
wasted,  
You're such a classic waste of cool, so afraid to break the rules in all the wrong places  
Then again it's good to get a call  
Now and then just to say hello  
Have I said I hate to see you go... hate to see you go
