## Wasted

## **Brandi Carlile**

If you had eyes like golden crowns and diamonds in your fingertips you'd waste it If shining wisdom passed your lips and traveled to the ears of god you'd waste it And so I hate that your overrated most revered and celebrated cause you're wastedThen again it's good to get a call Now and then just to say hello Have I said I hate to see you go... hate to see you goEvery time you close a door and nothing opens in its place you've wasted And when you speak the words you know to those who know the words themselves you're wasted, You're such a classic waste of cool, so afraid to break the rules in all the wrong places Then again it's good to get a call Now and then just to say hello Have I said I hate to see you go... hate to see you go Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
