

# Mysteries and Mayhem

## Kansas

I've been tryin' to tell you  
About a thing I thought I saw  
It came to me in a dream one night  
When a voice began to call I heard my name being summoned  
As I looked around to see  
A hooded judge and jury  
There was no mercy there for me Well, I can't make it, I can't figure it out  
This dream is drivin' me crazy  
I gotta know what it's all about  
The mark is upon me and the mark of Cain brings fear  
A cold wind's blowin', ooh, right down my back  
I'm runnin, I'm runnin', I'm runnin'  
From a figure that's dressed in black I think my legs are made out of lead  
'Cause I'm runnin' but I'm going nowhere  
The bad dream's comin' closer and closer  
I got a feelin' he'll always be there Forever is a long time to spend in agony  
And the demons of confusion  
Have got a place for me  
The mark is upon me and the mark of Cain brings fear I was tired, so tired of runnin'  
I had to turn and look around  
I saw eyes that looked right through me  
And a voice that made no sound  
My body froze, I stood and stared  
Unearthly face before me  
From the depths of a hooded nightmare  
I saw what could not be Mysteries and mayhem from the pinnacle I see  
There's no answer when there is no question  
The mark of Cain bears hard on me
