

Fast Lane

Macaco

Fast lane think about it
listen
think about it Open your eyes
Cause we're living fast and lane
We're living living in the fast lane fast lane fast lane fast lane faaast lane
(x2) With the cosmic situation
while living without the action
I cosmic and I cosmic and I cosmic and theeey
in the spirit elevation connecting with situation
Without birds without prayers, without doors without labors
the speed civilation give no time for meditation blooding their minds scratching their eyes
sloooow down I say the speed civilation give no time for meditation
slow down slow down Broken dreamers
scratching underworlds
Breaks one words
say no way
too fast too weak
make us bling in the ring
confrontation everyway Espagnol Open your eyes
Cause we're living fast and lane
we're living living in the fast lane fast lane fast land faaast lane
(x2)
People keep running fast
and the world keep fasting why
no no no nobody nobody can push you down
how many years should we write for them to listen
no no no nobody nobody can push you down
Go ahead go in free boards
while we have to be like the rest
see you got to have the answer inside
Get up Get up Get up get up and find
for your mind Open your eyes
Cause we're living fast and lane
we're living living in the fast lane fast lane fast lane fast land faaast lane
(x2)
