

# Rosie

Kelly Jones

Only the names have been changed  
Rosie Rosie helped the kids stay alive  
She gave them the drugs  
So they didn't die  
She cleaned up their mess  
As they wept and they moaned  
She got paid so little  
She rented her home  
An angel face, with the strength of a tower  
Worked every day, every minute every hour  
When she wasn't on the ward  
She was travelling on the train  
Through the wind and the sun  
And the snow and the rain  
Oh rosie - we thank you again  
Oh rosie - we thank you again  
Works all day, no time to eat  
Running back'n for to help children see  
We piss up a wall all the poison we take  
She barely gets out, not to dine or to drink  
I tip my hat to the angels on the ward  
You're in my heart with love forever more  
I thank you now for saving my girl  
And bringing her back to her own little world  
Oh rosie I thank you again  
Oh rosie I thank you again
